

CENTRE FOR STUDIES, RESEARCH AND DISABILITY SERVICES

Vision

The central vision of this knowledge-scientific organization is basically to form a knowledge treasury for the most important scientific, cultural and academic interventions in the field of the disability system, and to form a public anchor to link and create interventions and create an important educational culture and social policies targeting people in a situation of disability.

MESSAGE:

- Improvement of services targeting people with disabilities.
- Creating projects targeting disabled people.
- Engagement in programs and policies targeting disability.
