On the occasion of the inauguration of our center (Asia Center for Studies and Translation), thus we would like to give your good-selves some notes about our new center activities as follows:-

# Objective:

- This center and website are officially devoted to all Asian studies, beginning with Middle East issues, then passing through Russia, and issues of West and Central Asia, including the countries of the Islamic Commonwealth such as “Azerbaijan, Kazakhstan, and Uzbekistan,” Iran, Pakistan, and India, all the way to the Far East (China and Japan), as well as Southeast Asian countries including Indonesia, Malaysia, Singapore, the Philippines, and Thailand.

# Sharing research and ideas:

- While researchers specializing in these fields can share their articles, studies, and ideas about this promising and influential region in the world in the coming days, our goal is to develop human studies from an Asian perspective and a better understanding of Asia, because we have a lack of information about Asia in general except for those the superficial information that we get from the media, and it may be sometimes correct and sometimes biased.

# The war on terrorism:

- Our war against terrorism and extremism also requires some initiatives of this kind that make us better understand what are the causes behind terrorism in Asia, then how to solve and settle this human catastrophe and avoid the recurrence of terrorism in any other Asian country in the future, especially after the experiences of bitter in Afghanistan, Iraq, and Syria, as well as continue to strengthen relations with Asia in all possible aspects including "cultural, economic, political and social" relations.

# Carrying out translation work:

- In addition, the center specializes in translation (Arabic / English) of high quality, so we provide all our work, including articles, reports, and studies translated in both languages, in addition to providing translation services for companies, bodies, institutions, universities, writers, authors, and legal offices, where that Mr. Ahmed Moustafa - Owner & Director of the Center - is a certified legal translator who has his own stamp as a member of the Egyptian Translators Association (EGYTA) and has a valid translation card 10531 that allows him to translate inside and outside Egypt.

# Joint projects:

- Since 2022, the center has succeeded in concluding an agreement with Al-Ahram Gate (the largest and oldest news portal in the Middle East) to establish a media startup entitled (Eye on the Orient), which sheds the light, by interviewing the best experts as one of the foundations of the scientific method inside and outside Egypt, on Asian affairs economically, culturally, strategically and politically. Rather, it achieved viewership rates that reached more than 2 million views, in addition to the views of the experts themselves alone on Al-Ahram Gate, and the agreement has been renewed for the second year in a row for the 2023/2024 season.

# Consulting services:

Asia Center also wishes to provide consultations and cooperation as an agent for local and foreign companies and in the field of startups and research institutions, as well as think tanks inside and outside Egypt due to its experience in this field and the center's great relations with official and unofficial bodies inside Egypt in order to motivate others to invest in Egypt in this type of new services in the Egyptian market for mutual benefit.

Be guided accordingly.

# Coaching, teaching and training:

- The Asia Center for Studies and Translation is proud to provide the best training and teaching services through its president, Mr. Ahmed Moustafa, who has lectured in multiple places, embassies, think tanks, and conferences internally and externally—and also outsourcing the best elements from inside and outside Egypt from the teaching and coaching competencies that have local and international experiences and in more than one language.
